Scientists come to Kauai to share updated facts regarding the dangers of using Roundup

Who: Dr. Stephanie Seneff, Senior Research Scientist, Computer Science and Artificial Intelligence Laboratory, MIT. Dr. Seneff is currently researching environmental and nutrient effects to our bodies health, has published over 200 articles in technical journals. Dr. Carman has an Honors Degree in Organic Chemistry, PhD in Medicine and Master of Public Health. Serves on Ad Hoc Technical Expert Group on Risk Assessment and Risk Management of Living Modified Organisms under the Cartagena Protocol on Biosafety of the United Nations. Dr. Lorrin Pang, Director of Health for Maui County, Infectious Disease Specialist for the World Health Organization and Consultant of Efficacy Studies at Smith Kline Klaxo.

What: OUR RIGHT TO HEALTH Three evenings with experts discussing and sharing vital safety information.

Where: Tuesday July 28, Waimea, 6:30 PM Waimea Canyon Middle School Cafeteria

Wednesday July 29, North Shore 7:00 PM Church of the Pacific

Thursday July 30, Lihue 7:00 PM Kauai Community Performing Arts Center

Why: For the sake of our island and our children all spraying of Glyphosate should be immediately replaced with eco friendly alternatives. Evidence is mounting that Glyphosate is extremely toxic. 24 countries and counting are joining to ban Roundup. Glyphosate is very toxic through multiple mechanisms including cancer, birth defects in combination with other chemicals, changing of the gut bacteria, endocrine disruption and metabolic abnormalities. Furthermore it is being shown that Glyphosate has widely contaminated the human population. Dr. Seneff from MIT, Dr Carman with Risk Assessment and Bio Safety at the United Nations, and Dr. Lorin Pang will be bringing vital safety information to our communities.
